Card Management for Signature® Designed for the Complete Card Lifecycle

The pervasiveness of electronic payments in our society is now well established. However, card payment functionality handled by banks can differ greatly. Choosing the right partner is critical in ensuring that the card services you offer your clients are broad enough to meet all of their needs, but tailored enough to be cost-effective for your organization.

Card Management for Signature from Fiserv is a fully integrated card management system that is designed for the complete lifecycle of the cards you manage, from issuing and origination to transactions and collections. It is a proven, multinational solution for banks of all sizes and features multilingual capabilities (English/Spanish) specifically serving the international market. Card Management is Web-based, ensuring your users can access account information on a 24/7 basis.

Card Management supports issuing, acquiring, consumer credit, branded card programs, private-label card programs, personal/corporate cards, prepaid card programs, e-commerce, revolving and deferred lines of credit, third-party processing, and third-party integration. Importantly, Card Management is certified by Visa®, MasterCard® and American Express®.
